In all sizes; the latest thing in the new white slipper for children; go in basement at, per pair \$1.10 and \$1.15

DANCE AND AUTO JAG WORSE THAN WHISKEY

Judge Says Auto and Dance Dissipation More Harmful Than Booze Joy

San Francisco, Mar. 30.—"Tara-tum-tum" goes that orchestra and out you go on the polished floor to dip and glide with a lady fair to the strains of some magic melody, and when you are through dancing you take a spin in the automobile. If you do you are driving yourself insane!

That's what Superior Judge George A. Sturtevant asserted today. He has made a close study of madness. Men and women, he declared, are going crazy because they dance too hard and ride too fast in automobiles.

They may scorn the reeling drunkard under the lamp post, but Judge Sturtevant says his whiskey "jag" is less harmful than the former intoxication in which these folk are indulging.

"It is far less hurtful for people to go out and get drunk on what than for them to try and forget their worries in automobiles and on the dance floor," said he.

As for insane asylums they drive more people stark, staring mad than they cure, in the opinion of Judge Sturtevant, so he is campaigning for a brain hospital where people who have sick cerebellums may go and be cured.

Market Utterly Lifeless With Most Stocks Sagging

New York, Mar. 30.—The New York Evening Sun's financial review today said:

Speculative impulses were lacking at the opening of the stock market and nothing developed as the session progressed to break the monotony of the trading. So far as it could be determined from an outside observation the dealings were entirely professional and the market continued under the restraining influences of Mexican affairs and the submarine situation. The latter was by far the more important of the two in its effect upon outside interests and public buying dwindled to meagre proportions except in the bond division where a somewhat better inquiry was reported.

Five fives were stronger and touched 95 5/8 while dominion of Canada fives of 1931, which made their first appearance, sold at 96 7/8 in the early afternoon, an advance of two points over the issue price.

Initial trading in stocks was marked by irregularity but changes in either direction were inconsiderable except in Mexican Petroleum and Studebaker corporation, which were conspicuously heavy. United States Steel opened with a slight fractional decline and moved sluggishly within a narrow range while Standard railway issues were neglected as has been usual of late. Activity was confined to a mere handful of industrial issues which were churned vigorously. The bulk of the business originated within the four walls of the exchanges itself and aside from pool operations the trading element appeared to be disinclined to either buy or sell.

Reactionary tendencies became more pronounced in the late trading coincident with the reported torpedoing without warning of another unwarmed British ship and the lack of definite Mexican news. Conspicuous specialties like Mexican Petroleum and Studebaker corporation declined two points or more while Goodrich Tire, Blitwin Locomotive and some others in that class were depressed more than a point. United States Steel was heavy. The railway list sagged off, possibly in connection with the presentation of wage demands by organized labor. The market was not active but the sentiment was depressed during the last hour.

Salem Contractors Bid On Yamhill County Bridge

State Engineer Lewis was well pleased with the outcome of proposals received March 27 by the county court of Yamhill county on two bridges designed by the state highway department. The estimated cost of the steel bridge given the county court by the highway department at the time of submitting plans and specifications to them was \$10,790. The proposal tendered by Steinhilber Bros. was \$10,792. On the concrete viaduct, the estimated cost by the bridge department was \$12,500. The proposal submitted by John W. Asa, of Corvallis, was \$12,528. The state highway department will detail one of its employes as inspector of construction on the erection of these structures, for which the county has agreed to stand the expense.

YES—IT IS POSSIBLE TO STOP RHEUMATISM

Rheumatism is a tormenting and stubborn malady. In some cases it yields to treatment which is without avail in other cases.

The darting pains, lame muscles or stiffened joints only disappear by gradually expelling the uric acid, and so many thousands have been relieved by the blood-enriching oil-food in Scott's Emulsion that you should give it a faithful trial. Scott's Emulsion acts as a powerful blood-purifier by increasing the red corpuscles and it strengthens the organs to carry off the acids which cause the trouble.

Try Scott's Emulsion. It cannot harm. It has helped thousands and may be exactly what you need. No Alcohol.

Scott & Bowne, Bloomfield, N. J.

Villa Sends Mexican Boys to Military School

San Rafael, Cal., Mar. 30.—Francisco Villa is paying tuition expenses of six Mexican youths at Hitchcock Military Academy here, it was learned today. Nearly three years ago when Villa was in his glory he sent an agent to the school with the lads, and gave him \$18,000 in gold to pay their education in advance. Four of the boys are sons of Chihuahua land owners, one is an orphan and one a relative of Villa.

It was also learned that Villa paid for the schooling of six other youngsters at the Mount Tamalpais Military Academy here. It cost him \$6,000 for one year, at the end of which they went back to Mexico, supposedly for a vacation, but did not return.

TO SETTLE LABOR TROUBLES

London, Mar. 30.—David Lloyd George returned from France today to attempt settlement of the labor troubles at Glasgow, Scotland, where many workmen employed in manufacturing big runs have gone on strike, demanding that the government repeal its conscription measure.

SAN FRANCISCO MAY HAVE BRIDGE OVER BAY

Would Be Five Miles Long-- Carry Four Railroad Tracks and a Wagon Road

Oakland, Cal., Mar. 30.—Oakland, Berkeley and Alameda will be connected with San Francisco by a bridge across San Francisco bay if the plans of an association of bridge engineers, approved today, are carried out.

The idea has received the endorsement of Colonel Thomas Rees, federal engineer of rivers and harbors for the Pacific coast, it was announced at a meeting held here last night. It is proposed to construct a bridge costing \$20,000,000 which would begin near the Southern Pacific depot in San Francisco and span the bay at its shallowest point. The structure would be five miles long and would be wide enough to carry four railroad tracks, a wagon road and an automobile highway.

Committees representing the chambers of commerce of San Francisco and the three trans-bay cities are considering the plans.

Silverton, having been assured a \$400,000 sawmill employing 300 men, will soon know something about silver by the ton.

D'EXMA New Herbal Skin Balm

Closed Trout Streams Opened On April 1

A number of the trout streams in both Polk and Marion counties that

were closed during the season last year will be opened with the beginning of the fishing season April 1 according to the announcement of Deputy Warden Roy Bremner who wishes the fishermen to take note of the fact that the streams will be opened.

In Polk county Mill creek and its tributaries, Rickard and its tributaries, the Lookout and Salt, were all closed last year upon petition by the state fish and game commission. In Marion county Butte creek, Silver creek and the Abaque were closed but will be opened April 1 of this year to the fishermen, who promise to line the banks in goodly numbers.

Governor Appoints New District Attorney

Governor Withycombe has received the resignation of V. G. Cozad, of Canyon City, Oregon, as district attorney for Grant county, becoming effective April 1st, and the resignation was accepted. Mr. Cozad has been appointed as register of the United States land office at Burns. The governor announced the appointment today of Mr. J. M. Blank, of Canyon City, to fill the vacancy caused by Mr. Cozad's resignation.

MEXICAN BED TAPE

El Paso, Texas, Mar. 30.—General Gavira informed General Bell today that he would not permit army munitions to be shipped through Juarez until instructions had been received from General Obregon. Bell requested a conference. General Gavira crossed the line to Consul Garcia's office. It is believed that General Funston's code message to Bell today inspired the conference.
